

bricks & insulation ..

Bradford R2.0 Rockwool SoundScreen Acoustic Batt insulation installed in the external walls of your home helps you create peace and quiet where you need it most. The use of Supaloc® Steel frames also means your home will have better acoustic performance than a timber frame home.

Choices of colour for the facade of your home can be endless. Weeks & Macklin Homes offer an extensive range of bricks to allow you to create the perfect combination of colour, texture and form to suit your style.
