

41. Dux Instantaneous HWS

17. Aluminium Sliding Windows

**SOUTHERN STAR
WINDOWS**

windows & hot water ..

The Dux instantaneous hot water system is smaller than storage systems & can be mounted on a wall making it the perfect solution for narrow blocks. Water is heated as needed & therefore a storage tank is not required.

For our standard range of sliding windows colour choice could not be easier with a range of Dulux powdercoat finishes from Southern Star Windows. These colours are both popular and stylish & are specifically designed to suit a range of facades.
